

FUN FACT: California Title does not have an escrow!

What does this mean? Without a dedicated escrow company, we do not compete with you! Here is why California Title should be your go-to title company...

We Can Transact with Cryptocurrency -- California Title is one of the first title companies in California to partner with a global exchange company to convert cryptocurrency to good funds, which then gives us the ability to transact utilizing the top 10 cryptocurrencies. This gives us (and the escrow company) the opportunity to reach a new market/consumer.

We have 5 Underwriters -- This gives us the ability and flexibility to help you when difficult transactions arise. This also can save the consumer money.

We offer 5 Consumer Discounts -- In addition, our underwriters give us the ability to provide consumer discounts for Seniors, Active Military & Veterans, First-time buyers, First Responders, and Natural Disasters. **Discount valid one per transaction. Resale only. Other restrictions may apply. Contact your representative for more information.*

We Insure Cannabis -- California Title is one of the few companies that will insure cannabis real estate transactions! Please contact your California Title representative for more information.
