TIRED OF GENERIC Market Reports?

You Need to Try Market Snapshot...

Market Snapshot

With Market Snapshot....

- You **don't have to wait** for industry reports to be published with generic information.
- You can make a **custom** market report that is specific to neighborhoods of your interest.

Log-in to your Cal Title account to make your reports!

For Example...

1. **Client A** wants to know the activity of home sales in his/her ZIP code. – Generate a report based on Client A's 5 digit **ZIP code** -- in seconds!
2. **Client B** is interested in an area away from the highway and close to nearby parks and shopping. – Draw a **custom polygon** map around the geographic area to create a report.
3. **Client C** wants to compare bedrooms and home age between two neighborhoods. -- Use **Live Map** to make a report for specific neighborhoods and subdivisions.

- Access every report you create in your CTC account. The reports you make with Market Snapshot contain **LIVE** data. Meaning, the **stats will change when the market changes** so you only have to create the LIVE report one time.

Contact your Cal Title representative for more information.
